

My**3DEXPERIENCE**®

3DEXPERIENCE®

My3DEXPERIENCE®

My3DEXPERIENCE offer is the gateway to the power of the 3DEXPERIENCE cloud platform. Through it customers can **access a unique set of online services** that connects all the elements of their product development process and all of the **apps** and **services** they use every day to **empower innovation** and make their **business** more **successful**. All in a **single location**.

With My3DEXPERIENCE offer they can:

- **Manage** their **business** and **access design information anywhere, anytime, on any device**
- **Connect** employees, partners, and customers across their organization and value chain to share information and gain feedback throughout the development lifecycle
- **Securely store, manage, and share** their design data on the 3DEXPERIENCE platform
- **Aggregate real-time intelligence** from a variety of sources within their business, and across industry
- **Leverage** the global **community** to answer design questions, get training, and share their knowledge
- **Get** their **product manufactured** with a **qualified** network of industrial service partners
- Access and take advantage of Dassault Systèmes cloud-based 3DEXPERIENCE platform applications

This offer is available for **CATIA V5** and **SOLIDWORKS** Desktop users under subscription.

**CLIENTS / USERS
CHALLENGES**

IF WE

**My3DEXPERIENCE
OFFERS**

If finding data at a moment's notice is challenging.

WE provide them with quick and easy access to all of their business information and resources anytime, anywhere, and on any device.

If collaborating on projects is complicated.

WE offer a way to easily share information with their global network of colleagues, customers, vendors and suppliers.

If their network of experts and global online communities are scattered.

WE provide the ability to quickly connect to online training courses, expert advice, and user communities in one place.

If finding the right partners for their project is still too complex.

WE give them instant access to a qualified network of industrial service providers.

If accessing and reviewing their business information is too time consuming.

WE provide a simple dashboard centralizing all of their data and resources to help them make better decisions and speed time to market.
