

CATIA V5-6R2016 Release Value Synthesis – Key Messages

V5-6R2016 and 3DEXPERIENCE R2016x compatibility
 Enable co-design from interactive session between V5 and 3DEXPERIENCE across the supply chain

V5-6R2016 and 3DEXPERIENCE R2016x coexistence
 Part Design, Generative Shape Design, Sheetmetal, Interactive Drafting.....

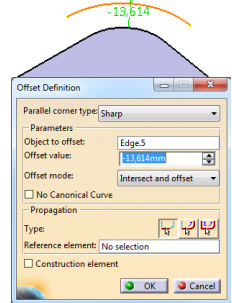

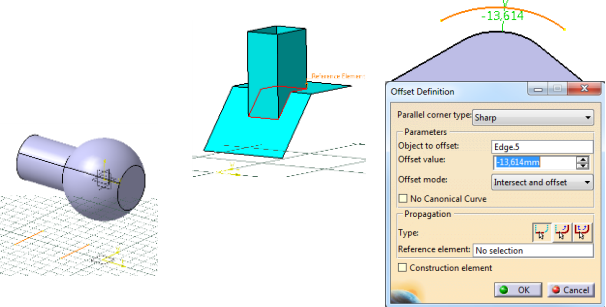

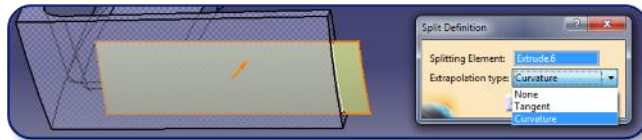

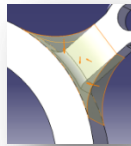

CATIA Imagine & Shape New capabilities: Detail Modeling, Advanced Primitives, Export, Mirror constraints, improved Ergonomics & Productivity

Generative Shape Design – Surface Design Improved geometry creation & analysis tools
 Fillet range context for advanced operators
 Middle surfaces Creation, Fill Surface with passing element, Shilouette Curve Creation, Advanced trim.

Part Design – Solid Modelling

Extended Edge & Tri-tangent Filleting,
 Extrapol, Sew, Pattern & Tolerant Modeling capabilities
 Split – Extrapol splitting surface in curvature

Enhanced Products: 25 | Extended Highlights: 85

LT ES | The 3DEXPERIENCE® Company
